MEMORANDUM FOR THE RECORD STATOTHR

SUBJECT: Conversation with [REDACTED] Itek - Lexington

1. Fabrication of the Image Enhancement Viewer will be completed by the first of November. All parts anodized and ready for assembly.

STATOTHR 2. [REDACTED] analytic program closely parallels that provided
STATINTL by [REDACTED] of NPIC. The program has been run and is now in the computer.
Final analysis will be completed early next week (28 October). ? Oct. 9 measure

STATOTHR 3. [REDACTED] requested a clarification of [REDACTED] last paragraph
in a letter dated 30 September 1963 (this in essence states that in addition
to the research program, approval for the testing of [REDACTED] aerial STATOTHR
photography was given to [REDACTED]). STATOTHR

4. Clarification was requested of the relationship of [REDACTED] STATOTHR
aerial photography tests and the initial Phase II contract. [REDACTED]
effort will be on a company proprietary basis and not to be included as a
part of the contract).
